

Construction Notice: Valley Line West LRT

AREA 3

Minor Lane Closure for Instrumentation Installation on 149 Street and Stony Plain Road

- Marigold Infrastructure Partners will be installing instrumentation in a previously drilled borehole to measure dirt properties that will provide important data to guide the design and construction of the LRT infrastructure. Once the information has been acquired, the hole will be resealed.
- Beginning on or around June 11, 2021, crews will be verifying local ground conditions along 149 Street and Stony Plain Road. This work is expected to last two days.

149 Street and Stony Plain Road

To accommodate this work, the public will be impacted in the following areas:

- There will be a minor closure of the outside westbound turning lane on 149 Street at Stony Plain Road while this work occurs.
- Westbound turns will still be permitted.
- The sidewalk adjacent to this work will be closed. Pedestrian access will be detoured to the north side of Stony Plain Road to avoid construction.
- This work will occur during off-peak hours (9 a.m. – 3 p.m.)
- Access to ETS Bus Stops will be maintained.
- Every effort will be made to reduce the impact to the public.

The information in this bulletin is current to June 1, 2021. Please note that all dates are approximate and weather-dependent. We thank you for your patience during construction of the Valley Line West LRT project.
