

HOW DO YOU COMPARE?

EXPLAINING THE RELATIONSHIP BETWEEN THE CHANGE IN YOUR ASSESSED VALUE AND PROPERTY TAXES

Edmonton

The City of Edmonton uses the assessed value of your property to calculate your property taxes. However, increases or decreases in assessed values do not automatically translate into increases or decreases in property taxes.

To anticipate the property tax change you might see on your next tax bill, it's critically important to understand how your property's assessed value change compares to the overall assessed property value change in Edmonton.

JUST LIKE 2021 AVERAGE

If your property's value change is similar to the overall city-wide assessed value change, you will see a tax change that is similar to the average municipal tax change.
